Summary of Changes

This section highlights important changes to the BVIFARS portal and User Guide, which have mainly arisen as a result of the updated FATCA XML Schema v2.0 schema released by the IRS. Further details on these changes can be found in [Section 2.1.2 - Uploading and submitting a US FATCA XML file](#) and [Section 2.1.3 - Completing a US FATCA Manual Entry filing](#).

Guidance on the updated IRS schema, including sample XML files, can be found on the IRS FATCA XML Schema and Business Rules page: <https://www.irs.gov/businesses/corporations/fatca-xml-schemas-and-business-rules-for-form-8966>.

Note: as of January 2017, only XML files submitted using the revised v2.0 schema will be accepted in BVIFARS. Any draft returns (i.e. not in a status of “Accepted”) prior to 2017 will need to be deleted, and the user will need to create and submit a new filing.

Updated element	Description
General Information Form: GIIN Field (manual entry form only)	The previous version of the US FATCA Manual Entry form collected the GIIN on the General Information form. This is no longer collected here, and will only be collected once using the “Reporting FI TIN” field.
Nil Report	A new section has been added to US FATCA reports to allow an FI to indicate that it has no accounts to report.
Reporting FI Information: Filer Category	A new field has been added to US FATCA reports for an FI to specify the Filer Category of the Reporting FI or Sponsor.
Account Information: Substantial Owner Type	New fields have been added to allow an FI to indicate whether a Substantial Owner is an entity/organization or individual.
Account Information: Account Closed	A new indicator has been added to allow an FI to declare the account status as closed.
Pooled Report	The Pooled Report section has been removed from the US FATCA Manual Entry form, as the new IRS user guide confirms that this section should not be submitted by FIs in in Model 1 IGA jurisdictions (such as the British Virgin Islands). Validation has also been added to ensure this section is not submitted as part of an XML Upload filing.
UK CDOT	The ability to create UK CDOT filings has been removed from the system. All UK CDOT filings will be submitted using the CRS schema, once available. Users will still be able to view previously submitted UK CDOT filings.

Introduction

Purpose

The purpose of this document is to provide a simple 'how-to' overview of the most commonly used functionality in the BVI Financial Account Reporting System (BVIFARS) with respect to financial institutions meeting their FATCA and CDOT reporting requirements. This document is not intended to provide business or policy/regulatory guidance to financial institutions; it includes only instructional 'how-to' guidance on the use of the system.

Scope

The scope of this document is based on US FATCA only, though most of the system functionality is expected to remain the same for the Common Reporting Standard (CRS), which will be delivered in a later release.

The 'how-to' guidance in this document is not intended to cover the full range of screens and functionality within the BVI Financial Account Reporting System, but it should provide a high-level overview of the most commonly used functions that financial institutions should expect to use as part of their normal enrolment and filing submission procedures.

1 General Functional Guidance

The below sections outline generic system guidance that is applicable regardless of the jurisdiction being reported to.

1.1 Enrolling with the BVI Financial Account Reporting System

In order to enrol with the BVI International Tax Authority to submit information under US FATCA, financial institutions must complete the BVI Financial Account Reporting System Enrolment Form.

Important Note: If you have already submitted an enrolment form and received your credentials for the system, you must not submit another enrolment form. If you wish to update your obligations, please do so using the Change of Reporting Obligations form, outlined in Section 2 – Updating reporting obligations after enrolment

1.1.1 Accessing the BVI Financial Account Reporting System Enrolment Form

1. Select the "Enrol" button from the BVI government website (www.bvi.gov.vg/fatca) to access the **BVI Financial Account Reporting System** enrolment form. You will be presented with a security image similar to the one shown in the image above.
2. Enter the characters shown in the image and select "Next"

1.1.2 Completing the BVI Financial Account Reporting System Enrolment Form

You will be presented with the **BVI Financial Account Reporting System: Institution & Primary User Enrolment** page (shown in two images below)

Your enrolment will be submitted for approval by the BVI International Tax Authority. You will receive notification by email once your enrolment information has been reviewed.

Submit

- Complete the form's input fields as applicable for your financial institution (all mandatory fields are marked with an asterisk)
 - Important Note:** the Financial Institution GIIN is only mandatory when enrolling for US reporting. If enrolling for UK reporting, a GIIN should be provided if one exists, but if it doesn't you will be assigned a unique Financial Institution Reference upon acceptance of your enrolment in the system. This unique reference should be used for UK reporting where a GIIN does not exist.
- Upload a passport scan and signed letter using the **Browse** buttons.
- When the documents have completed upload, select the **Submit** button.

Important note: The BVI Registered Office Address **must** be within the British Virgin Islands. Failure to provide a BVI address will result in your enrolment being declined. However, in the circumstances **where a Sponsoring Entity is enrolling** on BVIFARS for US FATCA only, a non-BVI address is acceptable, where the Sponsoring Entity is located outside of the British Virgin Islands.

1.2 Logging in and updating your user details

1.2.1 Logging in to the BVI Financial Account Reporting System

After your enrolment form has been reviewed and approved (if there are no issues that require correction), your financial institution and Primary User account will be created in the BVI Financial Account Reporting System. You will receive a system-generated email titled “BVI Financial Account Reporting System Account Activation” containing your username (the Primary User Email Address entered on the enrolment form) and temporary password, as well as a link to the system.

Important note: If your enrolment information is not deemed complete and accurate, you will receive a “BVI US FATCA: Enrolment Unsuccessful” email, which will include the reason your enrolment was declined. You will need to access the enrolment form again and complete it with corrected information and/or documents, as outlined in section 1.2 above.

- 1. Accessing the link found in your Account Activation email will present you with the BVI Financial Account Reporting System login page, as shown in the image below.

1.3 Updating reporting obligations after enrolment

If you have already enrolled with the BVI Financial Account Reporting System and have received log-in credentials, you must notify the ITA of any changes in reporting obligations (e.g. the addition of US FATCA reporting obligations if the previous enrolment was for UK CDOT and new FATCA reporting obligations now exist) using the **Change of Reporting Obligations** form.

Important Note: If you have not yet successfully enrolled with the BVI Financial Account Reporting System, you must complete your enrolment using the process outlined in *Section 1 - Enrolling with the BVI Financial Account Reporting System*.

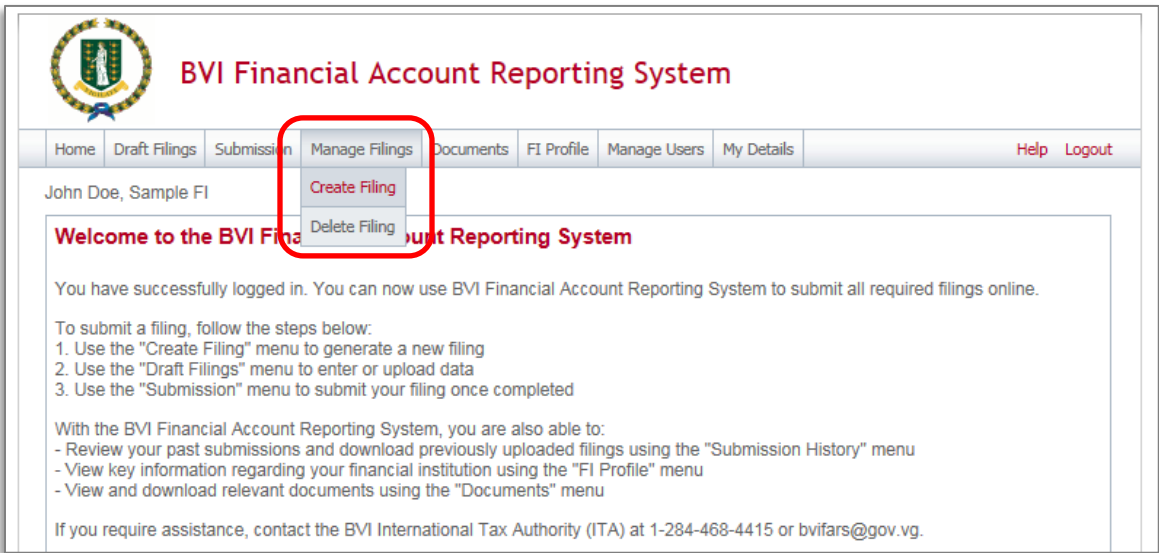

Important Note: You must update your reporting obligations to reflect all jurisdictions you will be reporting for. Otherwise, you will be prevented from submitting the filing that does not match your Reporting Obligations.

Important Note: Given that UK CDOT filings will no longer be submitted separately in the system (they will be submitted using the CRS schema, once available),for the time being Financial Institutions should only use this form to notify the ITA of new US FATCA obligations (if currently enrolled for UK CDOT only). Financial Institutions will be required to submit a new version of the form once available, which will allow them to update their reporting obligations to include CRS (and UK CDOT as applicable).

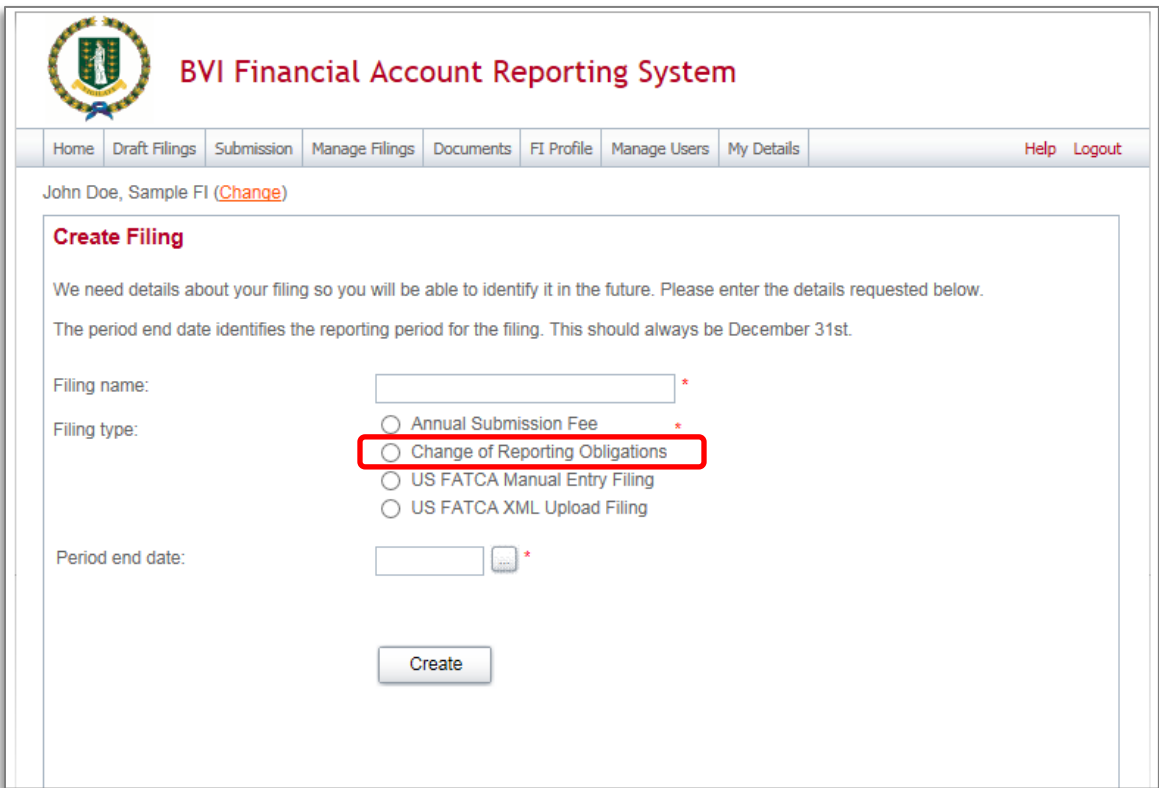

1.3.1 Creating a Change of Reporting Obligations filing

In order to notify the BVI International Tax Authority of updated reporting obligations, you must first create a **Change of Reporting Obligations** filing.

- 1. Navigate to the **Create Filing** screen using the menus at the top of the screen. Select **Manage Filings > Create Filings**, as shown in the image below.

All files submitted by Financial Institutions must comply with this new schema to be accepted by BVIFARS and the IRS. Notable changes impacting XML Upload filings include:
 - The SendingCompanyIN field in the message header must be the HCTA Entity Identification Number to comply with section 3.1 of the IRS FATCA XML Schema v2.0 user guide. BVI's HCTA Identification Number is **000000.00000.TA.092**.
 - The MessageRefId field should be a Global Unique Identifier (GUID) in line with section 3.6 of the IRS FATCA XML Schema v2.0 user guide.
 - A new NilReport element has been added to the schema. All submitted files must either include an AccountReport section or a NilReport section (where the NoAccountstoReport field is set to "yes"). See section 6.3 of the IRS FATCA XML Schema v2.0 user guide for more information.
 - A new FilerCategory field has been added for both the Reporting FI and the Sponsor, and it is mandatory that either the Reporting FI FilerCategory or Sponsor FilerCategory is included in the submitted file. See section 4.6.1 of the IRS FATCA XML Schema v2.0 user guide for more information.
 - A new AccountClosed item has been added to the Schema to indicate an account was closed or transferred in its entirety during the reporting period. See section 6.4.3 of the IRS FATCA XML Schema v2.0 user guide for more information.
 - The SubstantialOwner element within the Account Report has been updated to require a Substantial Owner Type (either Individual or Organisation) to be specified. See section 6.4.5 of the IRS FATCA XML Schema v2.0 user guide for more information.
 - The PoolReport element should not be included as it is not applicable for Model 1 IGA jurisdictions such as the British Virgin Islands. The system will present an error if your file includes a PoolReport. See section 6.5 of the IRS FATCA XML Schema v2.0 user guide for more information.
 - iii. Once your file is completed in accordance with the IRS FATCA XML Schema v2.0 user guide, it will be accepted for processing (see the image below) You will receive a system-generated email when the processing is complete, indicating either that your submission was successful, or that the submission was unsuccessful and that the file must be updated and resubmitted.

Allowable entries are FATCA1 = New Data, FATCA2 = Corrected Data, FATCA3 = Void data, and FATCA 4 = Amended Data. More information on each of these types can be found in the IRS FATCA XML User Guide. The IRS specifies that only one type of data should be contained in any single transmission file, so you must ensure that you select the same Document Type throughout the filing.
 - ii. The Document Reference ID is a field that is included in several sections of the filing (Reporting FI, Nil Report, Sponsoring Entity, Intermediary, and Account Information). 2.2 IRS notifications

After the ITA transmits filings submitted via BVIFARS to the IRS, the IRS will issue notifications that will be visible through the system. The system in turn will notify BVIFIs of any notifications via their email addresses and BVIFIs would be required to access the system to correct their filings.

Important note: The British Virgin Islands is a Model 1 jurisdiction, and as such all filings must be completed and submitted via the BVI Financial Accounts Reporting System (BVIFARS). IRS notifications and the IRS ICMM User Guide make reference to submitting corrections via IDES or by filing a paper submission Form 8966. Please note that these references are specific to FIs that report directly to the IRS. BVI Reporting Financial Institutions will receive notifications via BVIFARS and also submit corrections via BVIFARS. Failure to correct administrative or other minor errors within 120 days after the notice is issued by the IRS can lead to a determination of significant non-compliance and non-compliance will be dealt with in accordance with Article 5 of the Inter-governmental Agreement between the BVI and US.

This section of the BVIFARS User Guide must be read and understood in conjunction with the IRS produced instructions:

IRS ICMM User Guide: <https://www.irs.gov/pub/fatca/fatcareportsicmmnotificationsuserguide.pdf>

IRS Notifications FAQs: <https://www.irs.gov/Businesses/Corporations/IRS-FATCA-Report-Notifications-Frequently-Asked-Questions>

2.2.1 Viewing transmission progress & IRS notifications

When the IRS notification requires action from the Financial Institution the users for the Financial Institution will receive an email from BVIFARS titled "Action Required for {FILING_NAME}". The email will not provide details of the notification, but will inform the Financial Institution that a notification has been received from the IRS indicating that the filing contains one or more errors that must be addressed.

To view the transmission progress and notification(s) (where applicable) for any submitted filings, follow the steps below:

1. Log in to BVI Financial Accounts Reporting System, and select the appropriate institution if you have permissions for more than one institution.
2. Navigate to **Submission > Submission History** using the menus at the top of the screen.

3. You will be presented with the **Submission History** page, which presents the filings that have been submitted for your financial institution.

4. **<FieldErrorGrp>** - For record-level error codes 8001 (Pooled Report Error) and 8007 (Account Report Error) the notifications will contain a "FieldErrorGrp" for each field-level error, with the XML path for the data element ("FieldNm") in error and description of the error ("FieldErrorTxt"). Field-level error types are provided alphabetically by description in Figure 4-2 of the ICMM User Guide. Each field-level error must be corrected in a Corrected submission through BVIFARS.

```
- <FieldErrorGrp>
  <FieldNm>ReportingFI/TIN</FieldNm>
  <FieldErrorTxt>GIIN not populated</FieldErrorTxt>
</FieldErrorGrp>
- <FieldErrorGrp>
  <FieldNm>ReportingGroup/AccountReport/AccountHolder/Organisation/TIN;
  ReportingGroup/AccountReport/AccountHolder/Individual/TIN</FieldNm>
  <FieldErrorTxt>TIN not valid</FieldErrorTxt>
</FieldErrorGrp>
```

Important Note: all Record-Level Notifications generated for the 2014 reporting year only regarding the absence of an Account Holder TIN and/or date of birth may be ignored. Upon review of the notification file received from the IRS; if the only error described is the absence of an Account Holder TIN or date of birth, there is no requirement to submit a corrected filing. Note that for tax year 2015, either the Account Holder TIN or date of birth must be provided. For tax year 2016 and beyond, the Account Holder TIN field will be made mandatory.

2.2.3 Submitting Corrected Filings

If a correction is required, follow the same process outlined in *Section 2 - Submitting data in the BVI Financial Account Reporting System* to create and submit a "Corrected Data" filing, which includes the new or updated data requested in the IRS notification. Submitting a "Corrected Data" filing is different than submitting a "New Data" filing in the following ways:

- Document Type: select "FATCA2 – Corrected Data"
- Corresponding Message Reference ID: enter the Message Reference from the original "New Data" filing

- Corresponding Document Reference IDs: enter the Document Reference IDs of the appropriate section(s) from the original New Data filing

Note that only the record(s) with the corrected data needs to be resubmitted via a “Corrected” filing. However, since the record must be transmitted in a valid FATCA file, the filing must have sufficient data from the original file to pass schema validation and other checks, including a complete **General Information form** and **Reporting FI Information form** (or MessageSpec and Reporting FI data elements for XML submissions).

Important note: The IRS has specified that for filings with Record/Field Level Errors, if the record has an error in the Reporting FI GIIN, the original record must be voided and a new record submitted to correct the GIIN. This means that the FI must first submit a **Void Data filing (Document Type: “FATCA3 – Void Data”), then submit a New Data filing (Document Type: “FATCA1 – New Data”) with a correct Reporting FI GIIN.** If applicable, this guidance can be found within the <ActionRequestedTxt> field in the IRS notification. Void Data Filings must include the **exact same data** as was included in the original filing, but with an updated Document Type, Document Reference IDs, and Corresponding Document Reference IDs.

Important note: Filings with the below Transmission Progress categories must submit a **New Data filing (Document Type: “FATCA1 – New Data”)**, as opposed to a Corrected filing, as the issue relates to the core references used to identify the file:

- Failed: Invalid Message Ref ID (<FATCANotificationCd> = NMR)
- Failed: Duplicate Message Ref ID (<FATCANotificationCd> = NDM)
- Failed: Invalid Doc Ref ID (<FATCANotificationCd> = NDR)

Please see [Section 5.1 - Viewing transmission progress & IRS notifications](#) for more information on each Transmission Progress category.

2.3 Additional US FATCA Guidance

This section includes general information you should reference throughout the US FATCA reporting process. For additional detail on these topics, please see the IRS FATCA XML User Guide or FAQs.

Document Reference IDs:

- The IRS has introduced new format requirements for Document Reference IDs that came into effect in January 2016. New validation has been added to the BVIFARS system to check that all Document Reference IDs submitted within US FATCA filings conform to the new requirements. The IRS required format is **<ReportingFIGIIN>.<UniqueValue>**. More information can be found here: <http://www.irs.gov/Businesses/Corporations/FATCA-XML-Schemas-Best-Practices-for-Form-8966-DocRefID>
- The ReportingFIGIIN within the Document Reference IDs must match the GIIN entered in the Reporting FI TIN field on the Reporting FI Information form (for manual entry filings), or the TIN item within the Reporting FI group (for XML filings) in order to be accepted into the BVIFARS system.

Account Holder Type:

- When submitting an account report, if the reported financial account is held by an **individual**, the filer must not make a selection for Account Holder Type within the Account Report form (it should be left blank). The individual's First Name and Last Name must be completed when the account holder is an individual.
- If the reported financial account is held by an **entity**, selection of one Account Holder Type is required. Entity Name must be completed when the account holder is an entity.

Prohibited Characters:

- The following IRS prohibited characters must not be included in any filings as this will prevent successful submission in BVIFARS:
 - Double Dash (--)
 - Slash Asterisk (/*)
 - Ampersand Hash (&#)
- The following IRS prohibited characters must not be included in any **XML Upload** filings as this will prevent successful submission in BVIFARS. These characters **are** allowed in the Manual Entry filing, as they will be transformed to their escaped formats upon export:
 - Ampersand (&)
 - Less than (<)
 - Greater than (>)
 - Apostrophe (')
 - Quotation Mark ("")
- More information can be found at <https://www.irs.gov/Businesses/Corporations/FATCA-XML-Schema-Best-Practices-for-Form-8966>

Account Number

- If you do not have an account number for one or more reported accounts, note that the IRS guidance is to "provide the unique identifier used by the financial institution to identify the account holder or payee. If no account numbering system, then state "NANUM" for no account number".

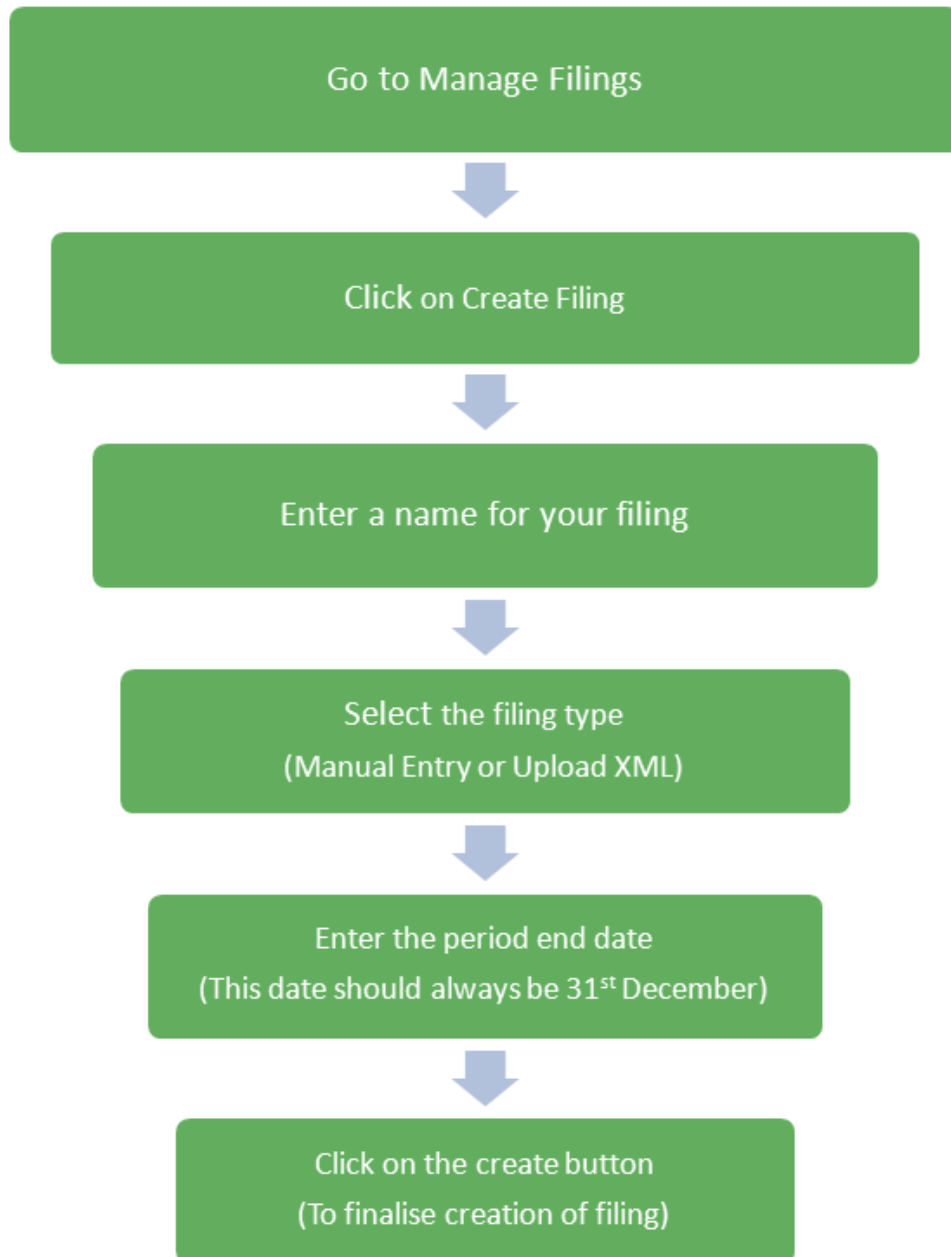

3 UK CDOT Filing

Important note: The ability to create a manual UK CDOT filing or to upload an XML UK CDOT filing has been removed from the system, as all future UK CDOT filings will be submitted using the manual entry or upload option via the Common Reporting Standard (CRS) filings. BVIFIs will be informed when the BVI Financial Account Reporting System is updated to accommodate the Common Reporting Standard and further guidance will be provided at that time.

Important note: FIs can still view previously submitted UK filings via the Submission History menu.

For US FATCA, No. There is no requirement for Financial Institutions to submit a Nil Report and as such, Financial Institutions are not required to enrol with BVIFARS if there is nothing to report, however, BVIFARS will accept a Nil Report, so a Financial Institution wishing to submit a Nil Report will have to enrol to do so.
