

## Request for Quotations Provision of Derelict Boats Staging Site

### Background:

The passing of hurricanes Irma and Maria in 2017 left a significant number of vessels stranded along the coastlines and bays of the Virgin Islands. Several vessels remain which need removing. These vessels have no remaining value and are to be treated as waste. They will be removed from their current location for further processing and disposal.

This Scope of Works for this activity forms a request for interested landowners (individuals and firms) to propose their site to be the location at which vessels will be staged (known as the Staging Area). This Staging Area will be the location that vessels will be stripped of all recoverable materials and the remaining fiberglass processed for disposal.

Once the works are complete, the site will be returned to the landowners. As part of the submission, the landowners may specify what condition they want the site to be returned in. This will form part of the conditions for use of the site.

Please note that this Scope of Works is not for the processing of the boats at your site. Rather, it is for the rental/lease of your land only for a period of 6 – 12 months. The processing of the boats will be issued as a separate tender but it will be conducted at your proposed site.

The RDA now invites suitable landowners to submit a quotation for the use of their land for the purpose of derelict boats staging area for a minimum period of 6 months, with the option to extend the lease on a monthly basis for up to 1 year.

Interested eligible landowners may request a copy of the detailed Scope of Works by sending an e-mail to: [procurement@bvirecovery.vg](mailto:procurement@bvirecovery.vg)
