

HAVE YOU BEEN IN CLOSE CONTACT WITH A POSITIVE COVID CASE?

HERE IS **WHAT** YOU SHOULD **KNOW** AND **DO!**

If you have been in close contact for 15 minutes or more with someone who has tested positive for COVID-19 without wearing a mask, you should:

- 1. Wear a well-fitted mask for a period of 14 days** when you are around others and especially when around vulnerable persons;
- 2. Make arrangements to have a Rapid Antigen test or rt-PCR test at Day 5 to 7** after exposure to a positive case or at any time if you develop symptoms;
- 3. Be aware that home test kits are available for purchase at stores locally,** and testing is available in both the public and private sector throughout the Territory as the Ministry will no longer be making arrangements for routine free COVID-19 screening.

TESTED POSITIVE FOR COVID-19?

HERE IS **WHAT** YOU SHOULD **KNOW** AND **DO!**

- 1. Self-isolate for a period of 7 to 10 days.** You may end isolation at Day 7 if you test negative by Rapid Antigen test, or after ten days with no test once you are symptom free for at least 24 hours;
- 2. At the end of your isolation, contact your medical provider to provide a recovery letter** to return to work or school, depending on the policy of your employer or school;
- 3. If your symptoms are severe, worsening, or concerning, or if you have other medical conditions contact your healthcare provider** to determine if you may be eligible for an anti-viral or other treatment.
- 4. Wear a well-fitted mask for a period of 14 days** and avoid contact with vulnerable persons during this time;
- 5. Contact your medical provider if you require sick leave or social security certificates** to cover your absence from work or school.
